

energyWall[®] Windows

double hung

option

+ Insulating Green Foam*

Increases your energy savings.
Lowers the U-Value which increases thermal performance.
Increases the R-Value.

casement

Sash cranks fold into base for a clean look. Sash opens fully with just a few turns. These windows are triple sealed against the weather and can be safely cleaned inside the home. Hinged side of sash slides away from frame when fully opened.

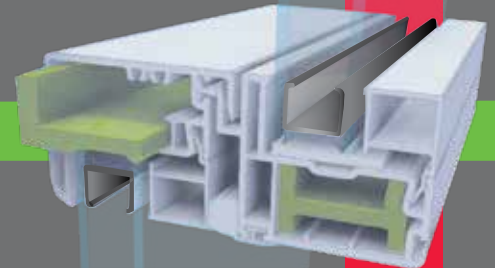

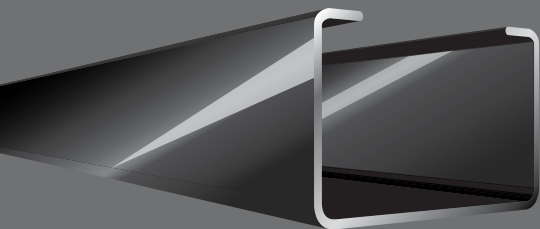

option

BLACK^{option}

Intercept[®] Stainless

Sealant Effectiveness & Gas Retention. The sealant provides the moisture vapor barrier for the I.G. unit. The longer the transmission path, the slower the rate that moisture will travel into the unit through the seal. STAINLESS Steel is Impervious to gas transmission, improving gas retention and Maximizing the insulation value of your window over time. Intercept[®] Stainless offers one of the best transmission paths to maximize window performance.

- **Better Thermal Performance**
Up to 700 times better than aluminum in material-to-material comparisons.
- **Better Thermal Break**
Impervious to cold or heat.
- **Better protection against condensation**
Helps prevent staining that can occur with metal reinforcements.
- **Better flexibility**
Will not permanently set when impacted.
